

## **COLLECTIVEPOINT, LLC ANNOUNCES THE UPCOMING RELEASE OF AUTOIM 2.0**

Austin, TX (June 30<sup>th</sup>, 2004) – Austin based CollectivePoint, LLC, a provider of customer-based chat solutions and offshore software development operations, announced today the upcoming availability of AutoIM 2.0. AutoIM will allow visitors to dealer's websites to communicate with a sales or service agents instantly through a "Live Help" platform, increasing sales and customer loyalty.

"With new features like pro-active chat, dealers can extend that personalized experience that is traditional in their storefront to that of their website" said John Glenn, Chief Executive Officer at CollectivePoint, LLC. "By proactively contacting and initiating dialogue on a dealer's website, dealer's can turn prospects into customers."

AutoIM addresses the present and future customer service and sales needs in today's internet dominated world. AutoIM, a live help chat platform, was introduced to address the expanding need for dealerships to offer an alternative way for their customers to engage them in any service or sales situation through their existing web presence.
